

Safety Guide

Before You Arrive

For **ALL visitors**, including our **Farmer Ted's Members**, you'll need to **pick a time slot** and **book your tickets online**.

If you're suffering from any COVID-19 symptoms, however mild, for everyone's benefit, please stay home and only come see us when you're feeling better.

Take a look at our website and social media before you visit the farm for the most up-to-date information.

What We're Doing To Keep You Safe

Following recent government guidance and easing of COVID-19 restrictions, we are delighted to announce that we have reopened the majority of our **adventure farm**, including the **animal and reptile barns**.

Hand sanitisers have been placed around the whole farm for your convenience, we still very much **encourage hand washing**.

There will be a **one-way system** in place wherever possible.

We ask those using these car parks to observe social distancing and to behave responsibly.

We will be ensuring correct social distancing by **limiting guest numbers** per day.

Good hygiene and cleaning will be maintained in all public areas.

Areas of contact such as the arrival process and food takeaway services will be made with as little contact as possible.

Payments on site will be by Contactless or Credit Card only.

Signage and markings will be in place and appropriate PPE for staff where necessary.

We know things are a little weird at the moment, but if we all do our bit, we can all stay safe and have a fantastic time.

Thank you from all of the Farmer Ted's team!
